Dear Senator Wilson:

[redacted] Your October 16th communication on behalf of [redacted]  
[redacted] your case 9258060039, concerning the Earth First  
organization, has been referred to me.

First of all, let me say that we appreciate [redacted]  
support of the FBI and its investigative efforts. However, there  
has been a misunderstanding as a result of allegations in the  
newspapers that the FBI is investigating Earth First, which is a  
group of environmentalists and citizens throughout the country who  
are concerned with protecting our environment. These allegations  
are based on an FBI investigation which led to the arrest of four  
individuals who were charged in a Federal complaint with destroying  
various properties and conspiring to commit acts of destruction of  
power lines at nuclear facilities in three western states.  
These individuals have been indicted and are awaiting trial in  
United States District Court in Phoenix, Arizona. Some of the  
individuals who were arrested were members of Earth First; thus,  
it was alleged that the FBI was investigating this organization.  
I want to emphasize that Earth First was not the subject of this  
investigation, nor was its overall membership. Our investigation  
focused on the individuals responsible for committing criminal acts  
within our investigative jurisdiction.

I hope that the information I have provided will be of  
some assistance to you. Your enclosure is being returned as you  
requested.

Sincerely yours,

Honorable Pete Wilson

NOTE CONTINUED: mistakenly believes that EARTH FIRST, as an organization, is under investigation. This response is based on replies to similar inquiries received in the past, which have been coordinated with SSA [redacted] Domestic Terrorism Unit, CID. A preliminary investigation was initiated in 1/88, captioned EARTH FIRST; DS/T, OO: Phoenix, and it was based on allegations that a group of individuals, some of whom belonged to EARTH FIRST, were committing acts of sabotage and destruction of properties on behalf of their environmental philosophies. A full DS/T investigation was authorized in 6/88, and the title was changed to EMETIC. This investigation was not an investigation of the group known as EARTH FIRST, but it focused only on a group of individuals, many of whom were members of EARTH FIRST, who were engaged in a number of criminal acts within the FBI's investigative jurisdiction. A Group I UCO was approved by the Director and the case title was again changed to ICEFOG and in 1/89 was designated as a major case entitled THERMCON. As a result of this investigation, 3 individuals were arrested on 5/30/89 and one on 5/31/89. They were charged with various violations of Title 18, USC. were indicted, and are awaiting trial in Phoenix. Per call to SSA [redacted] on 11/9/89, trial in this case is still pending. Based on available information, [redacted] [redacted] is not identifiable in Bufiles.
